

NOAA GLRI Webinar - Project Fact Sheet

Project Title	LAMP Capacity Building
Project Lead	PI: Jennifer Day
Funding amount (\$) and years funded	FY19 - \$20,000 FY20 - \$20,000
External partners, collaborators and/or sub-awardees	
GLRI Focus Area	FA 5 – Foundations for Future Restoration Actions
GLRI Action Plan Primary Measure	Objective: 5.2 - Conduct comprehensive science programs and projects
	Measure(s) of Progress: 5.2.2 - Support implementation of the Great Lakes Water Quality Agreement
Brief project description	NOAA is active in the implementation of the Great Lakes Water Quality Agreement with staff participating on eight of ten Annex Subcommittees. Annex 2 – Lakewide Action and Management Plans is particularly challenging requiring staff to lend their geographic and technical expertise across five lake processes and the actions under each. The GLRI provides funding to ensure that NOAA is fully supporting each LAMP with science, products and services across our broad mission and coordinating the work and travel of staff on each lake LAMP.
