

South Atlantic Coastal Study Vision Meeting 2

The U.S. Army Corps of Engineers (Corps) is hosting Vision Meeting 2 for the South Atlantic Coastal Study (SACS). As a follow-up to Vision Meeting 1 held this past February, Vision Meeting 2 will introduce the Tier 1 Regional Risk Assessment and draft Shared Vision Statements for federal agency feedback.

The SACS Command Team will chair the meeting with District Project Managers in attendance. The meeting format will consist of a brief information rollout, a drive-thru of the geoportal, review of the draft shared vision statements, and an opportunity for questions and comments. This meeting is intended to be more of a dialogue than the other Vision 2 Meetings that you may have participated in.

We are working to make the Geoportal available to the public for use on June 14th, in preparation for field workshops this summer to finalize the Tier 1 Risk Assessment, identify focus areas for a detailed Tier 2 Assessment, and coordination of state- and territory-specific analyses.

On behalf of the entire team, we look forward to your participation!
